THE EAGLE'S NEST SOLD. Warehouse Point Man Buys Property of Postmeeter Dimock.

One of the largest real estate transfers of an individual character effected in this city in a long time, was made Friday when Postmaster C. H. Dimmick's place on Hosmer mountain, known "The Eagle's Nest," was sold to Donald Dixon of Warehouse Point. The Eagle's Nest is one of the most sightly places in Windham county and comprises about 75 acres of land and an excellent residence of about a dozen rooms, an up to date poultry plant valued at \$2,500, and a five-acre raspherry patch that has annually produced a large number of crates of choice marketable berries.

The consideration of the transfer was not made public. It is understood that the new owner will assume possession about April first. Postmaster Dimmick has not decided where he will reside, as he has a number of places under consideration.

Track Squad Going to Putnam. Track Squad Going to Putnam.

The track squad of the Windham high school, numbering about thirty men, including the basketball quintette, will go to Putnam today to participate in an indoor athletic meet with Putnam high school in Hammond hall. The basketball teams representing the two schools will also try conclusions. Profs. W. E. Foy and L. S. Merritt of the faculty will accompany the boys on the trip. This will be the first meet that the local school has participated in for a great many years.

PASTOR AT DAYVILLE. Transfer of Rev. Ignatius Kost from

Rev. Ignatius Kost, pastor of St. Mary's Roman Catholic church at South Coventry, is to be transferred to Dayville. Father Kost has been pastor at South Coventry for the past seven years and during his term of service there although the parish is a small one, has built it up considerably and has reduced the debt. He has been popular among the people of the village, as well as with his parishioners, and they will be sorry to have him leave the community.

Tomorrow he will make announcement to his parishioners that he is to leave them and he expects to remove to Dayville on Thursday of next week. It is understood that the priest who

Joseph W. Congdon, one of the most prominent residents of Hampton, died Thursday evening in the Butler hospital, Providence, as a result of nervous disorders and of the hardening of the arteries of the brain. He had been a patient at the hospital for the past three months. Deceased was a native of Pomfret, the son of James and Rebecca (Osgood) Congdon. The first thirty years of his life were spent in his native town, and then he removed to Hampton, where he followed the life of a farmer until his advanced age compelled him to retire. Politically he was an enthusiastic republican and had held about every office within the gift of the electors of his town, having been a representative to within the gift of the electors of his town, having been a representative to the general assembly, first selectman for a term of four years, a member of the town school board for fifteen years and a member of the board of assessors and the board of relief for a long term of years. He was a member of the Hampton Congrecational church. Some 35 years ago he married Sarah Roselle Carey of Scotland, who survives, He also leaves a son, Frank W. Congdon of Hampton.

FUNERAL

Edmund P. Kenyon. Edmund P. Kenyon.

The funeral of Edmund P. Kenyon was held Friday afternoon at one o'clock from his home, Maplecroft, Windham. Rev. Harry Grimes, pastor of the Windham Congregational church, was the officiating clergyman. The bearers were John Beckwith, Everett Hopkins, Adam Larrabee and Benoni Bates. Burial was in the Windham cemetery. Funeral Director H. N. Fenn of this city was in charge of the arrangements.

Cut Clean Disc Out of Plate Glass.

People who have chanced to pass by A. N. Vaughn's store on Union street have had their attention attracted to a peculiar hole in one of the large show windows. The hole is a clean cut one, a little larger than a sliver dollar. The remainder of the large pane of glass is not even cracked. A youngster was responsible in a way for the phenomenon. The boy picked up a stone, round in shape, and threw it accidentally striking the window and cutting out a circle of plate glass as stated above. The peculiar thing about the affair is the fact that the disc of glass so cut out has a clean edge as if cut with a diamond. The boy threw the stone some time Thursday. No action has been taken against the lad, as it is understood that it was purely accidental.

Camp Picture Taken in 1899. Camp Picture Taken in 1899.

Capt. James Cochrane received a picture from Major A. D. McIntyre of Putnam this week, the original of which was taken at Camp Marion in 1899. The protograph is an enlarged one, showing a two-wheeled mule or donkey cart, in which are seated three typical southern negro boys. Captain Cochrane is seen in the foreground in full uniform as well as a number of his staff officers. It was a pleasant reminder of the bright side of life in camp during the war with Spain and the captain was much pleased to receive it.

IN TALL TOWER'S CLOCK. Total Number of Lights Now Used or the Dial and Hands is 224.

the Dial and Hands is 224.

The latest experiment in the lighting of the clock in the tower of the union station seems to be about the best that has been tried by those in charge of the timaplece. The lights were turned on last night for the second time and one had only to glance at the clock to tell what the time was. From an artistic standpoint the effect is not noticeably attractive and at a considerable distance from the tower all that can be seen is a blur of light, but on the whole the arrangement appears to be very satisfactory and probably it would be hard to improve upon it without another long period of experimenting and tinkering.

On each minute hand of the clock there are 27 lights, and on each hour hand 17 lights. A light is also at each one of the numerals, making 56 electric lights used on each dial, a total of 224 lights for the four dials. The new arrangements were made under the supervision of C. F. Egier of the E. Howard Watch company, the firm that installed the clock.

Hereafter no one will be admitted to the tower without first getting the keys from Station Master John H. Flumb, as a new iron gate has been put in place at the foot of the stairs leading from the second floor.—Waterbury American.

Ten residents of Hartford were already affiliated in the order and they took charge of the deremonies and initiated the forty candidates for membership. C. McKew Parr was the directing general. Dinner was served in the rathskeller prior to the initiation ceremonies. The promotion and popularization of electricity in the world's work is the basic object of the organization.

Burglars in Drug Store. Jacob Champagne's drug store at Stamford was burglarized the other night. About \$150, a check for \$20, a set of surgical instruments and an overcoat were stolen. The money was taken out of a safe. Entrance was made through a rear door. A panel was cut to permit of a hand going through to shove back the bolt and turn the key.

Woman in a New Field. Woman has invaded another field that man has heretofore considered his exclusively. A young woman, Miss Daisy Ogden, has been made division superintendent of a territory on the Burlington railroad, between Watertown, Ill., and Betterdorf, Ia. She had to pass a good many men in rising in her position, and did it by superior service. The company must have found that Miss Ogden would make a better division superintendent than any man it had available for the place or it would not have given it to her. So let the men not resent her advancement nor grudgingly give her their best service.

This is rather an innovation for woman, but it may open the way to others for similar positions in railroad work. Some time ago a movement set in against young women as clerks and stenographers in big railroad head-quarters, and embargoes were established by a few companies. Is it possible that general managers or superintendents foresaw what might happen and began to fear for their own jobs? Woman holds up her side fairly well in nearly every vocation where she is fairly pitted against man. There is little chance today for the old fogy notion that man is naturally woman's peer.—Omaha Bee Woman has invaded another field that man has heretofore considered his
